multiplication and  
aterials, drawing  
to reasoning problems.

To continue to solve reasoning problems using the four operations  
To start learning the 3x, 4x and 8x tables

## Science

*Achievement this year:* Ibraheem has enjoyed science this year. We have learnt about everyday materials, animals (including humans), plants and living things and their habitats. When conducting experiments and making observations, Ibraheem was able to use a number of scientific skills. For example, he asks scientific questions and can suggest ways we could answer them. He really enjoyed our experiment based on what plants need to grow well. He can make observations using simple equipment and record them by drawing and writing while using scientific language. Ibraheem has really enjoyed the more practical side of science, particularly our experiment where we looked at how different seeds and bulbs germinate. Well done!

### *Science target:*

To use scientific language  
To make sensible predictions

**English**

*Achievement this year:* Ibraheem has made good progress in English this year. He is now writing more independently which is great to see. Most of the time he remembers to use appropriate punctuation such as capital letters and full stops on his own. Ibraheem uses interesting adjectives and is showing an understanding of how to use conjunctions such as 'because', 'and' and 'but'. He has a good imagination and freely expresses his ideas. Ibraheem has produced some good pieces of work and his sentence structure has improved. Ibraheem listens well during whole class discussions and is always so eager to share his ideas. When reading, Ibraheem is able to use his phonics to sound out and read challenging words. He is making good progress and I would encourage him to read more. Keep up the good work.

*English target:*

Writing: To focus on presentation skills and spelling.

Reading: To read with expression out loud with confidence.

**Maths**

*Achievement this year:* Ibraheem enjoys our Maths lessons and has made good progress over the year. He has a good understanding of place value and can apply this to solve a variety of different problems. His mental maths skills are excellent and he is always quick to share his methods and has mastered that addition is the inverse to subtraction. He has consolidated his understanding of the four operations and can solve addition, subtraction, multiplication and division calculations using a number of methods including using concrete materials, drawing pictures or using a number line. He works hard to apply this understanding to reasoning problems. Keep up the good work.

*Maths target:*

To continue to solve reasoning problems using the four operations

To start learning the 3x, 4x and 8x tables

Pupil comment

I loved learning about Art. This year I have really enjoyed playing with my friends. I love my best teacher and the whole class.

Signed Ibraheem m

Class Teacher comment

Ibraheem has made good progress in Year Two. He produces work that is well executed but he does need to focus on his presentation skills. Ibraheem writes well although he needs to work on his spellings. Ibraheem has good mental maths skills and he is very willing to share his strategies during our class discussions. Ibraheem enjoys school life and is a popular member of the class. He has some very good friendships and he has a sensitive and sensible personality. I have every confidence that Ibraheem will make good progress in Year Three and I wish him every success. Keep up the good work!

Signed Mrs Young

Headteacher comment

Well done Ibraheem, you clearly enjoy school and the challenges that Mrs Young gives you. Continue to strive and be the best!
