### STUDENT PROGRESS REPORT

No	Subject	Score	Descriptive
<b>A. General Subjects</b>			
1	Religion	84	<i>Student is able to understand good behavior and is able to apply it in everyday life. Student is able to understand well the events of Rasūlullāh's from his birth until his death and emulate his praiseworthy qualities and apply them in everyday life.</i>
2	Pancasila and Civic Education	70	<i>Student is able to explain the process of Indonesia's independence journey during the BPUPKI event, however Student will also need additional guidance to increase their knowledge, not only from teachers, but also can be through other books or references from the internet so that in the future you can study citizenship material more easily.</i>
3	Bahasa Indonesia	86	<i>Student is able to understand procedural text material well. However, student still need guidance in understanding descriptive text material and folk poetry well so He can be more enthusiastic about doing assignments and attending.</i>
4	Mathematics	70	<i>Student needs to improve His understanding of the material that has been taught and to be more diligent in carrying out the tasks given by the teacher. Keep up the enthusiasm for learning.</i>
5	Science	79	<i>Student is quite able to understand materials regarding the introduction of microscopes and the scientific method in science, characteristics of living things, taxonomy, and knowing the kingdoms. Ananda Mubarak was quite able to create key determinations and dichotomies of both animals and plants. However there is still a need to increase activeness in asking questions in class discussion forums, punctuality in entering lessons and submitting assignments, as well as focus in receiving learning. Always keep the enthusiasm for studying. Student also understand units and quantities quite well, the properties of acids and bases, but still need a lot of practice regarding temperature and changes in the states of substances.</i>
6	Social	83	<i>Student has been able to understand well and can categorize the types of human needs based on their respective categories as social creatures in society, but for the next learning process, He must focus more on paying attention to the material being taught so as not to ask for repetition of the material.</i>
