CLASS TEACHER COMMENT

Hunnah has had a fantastic year in Year 2! She is a hard-working and friendly member of the class who always follows instructions, setting a great example to her peers. Hunnah has thoroughly enjoyed our Superhero topic this term and has written a gripping narrative with description, exciting punctuation and details. Her next steps are to ensure that she takes more care in the presentation of her work focusing on her handwriting. Within maths, Hunnah must proof-check her work checking for any errors and continue to practise the methods taught in class. Her next steps are to practise reasoning questions with a focus on 2-step word problems. It has been an absolute pleasure teaching Hunnah and I wish her all the best in her new school, she will truly be missed! Best of luck in Year 3!

Understanding the Report

Achievement Grade

To arrive at the grades for each student at the end of each term, we have a number of mechanisms for assessment. This will comprise of using information from the continual teacher observations, subject specific assessments and in some cases, standardized assessments such as MAP (Years 3-6 only).

The triangulation of the information from each of these areas not only allows us to formulate a best fit grade for each student but also provides us with a detailed insight into the next steps for each student. **These grades are assigned by your child's class teacher of each subject.**
