Periodic vision examination is an ideal opportunity to detect vision problems with children, whenever these problems are discovered at an early age. There are greater chances of restoring sight. If you have any concerns about your child's vision or abnormal conditions of the eye or any family history of these problems, you should seek to make an assessment of this matter by an ophthalmologist in Child's health center.

تتميز الفحص الدوري للعين بكونه فرصة مثالية للكشف المبكر عن مشكلات الرؤية لدى الأطفال، كلما تم اكتشاف هذه المشكلات في مرحلة مبكرة من العمر، كلما كانت فرص استعادة الرؤية أكبر. إذا كان لديك أي مخاوف بشأن رؤية طفلك أو أي تاريخ عائلي لهذه المشكلات، فيجب عليك التوجه إلى طبيب أمراض العيون في مركز صحة الطفل.
